- din-rail mountable
- power connections on wago cage clamp®
- manufactured in the EU under ISO 9001 quality control

## DIMENSIONS

The family of wireless DMX interfaces developed by lux lumen is based upon the very popular WDMX platform from wireless solutions. Using the lux lumen din-rail mountable card greatly simplifies the use of the WDMX units. Having the same form factor as the complete lux lumen DMX card range, it is easy to integrate in your system. When cabling is a problem, this range of modules is the best problem solver.
